This is the only repeat from book 1. I added the harmony part to give more interest and variety. Playing a few repeats of Road to Lisdoonvarna and then moving directly into Swallow Tail makes a nice rhythmic change while staying in the same key. In the fiddle1 part, place your first finger on both the A and D string as you start the song, so your first finger doesn't have to jump around! Speed is a key to this tune! CHALLENGE YOURSELF!!
